

BERLIN WILL CAREFULLY STUDY ARABIC EVIDENCE

Foreign Minister von Jagow Desires
No Discords in Relations
With America.

TALKS OF SUBMARINE PROBLEM

Expresses Confidence That, in View
of Instructions Given, Possibility
of Further Disturbing Incidents Is
Virtually Eliminated.

BERLIN, September 18 (via London).

The German government will give its careful consideration to the evidence concerning the circumstances which attended the sinking of the steamship Arabic, sunk by the American submarine U.S.S. O'Brien, off the coast of Germany, September 17, 1915.

Herr von Jagow said that Germany could not well repudiate the report of the commander of the submarine which sank the Arabic, nevertheless, there was room for a difference of opinion, and Germany would examine carefully the evidence from Washington.

In his statement, the Foreign Minister went fully into the present status of the submarine problem, and the adventurous circumstances which for a time threatened to revive the tension between Germany and America. He expressed complete confidence that, in view of the instructions which had been given and the precautions now being taken, the possibility of further incidents in connection with the submarine campaign which would disturb the relations between the two countries had been virtually eliminated.

WILLINGLY PARTICIPATE IN THE NEGOTIATIONS

Germany, Herr von Jagow said, would participate willingly in the negotiations now being taken up in Washington, and hopes for the most satisfactory results therefrom.

"Neutral merchantmen, including Americans, are exempt from interference, as stated long ago, except when carrying contraband," said the Foreign Minister, "and will then be destroyed only under the conditions laid down in the international code concerning maritime war, when provision is made for the safety of those aboard."

READY TO ACCEPT

"Some time ago President Wilson tendered his good offices to bring about a modification of these retaliatory measures. Germany then promptly signified readiness to take advantage of this friendly offer, and is still ready to do so."

"As to negotiations to supplement the declaration made by Ambassador von Bernstorff, tonight's dispatches from Washington report that the American government itself has decided to begin conversations on this subject. This imperial government certainly hopes a full agreement may be reached which will bar the possibility of future difficulties with the United States arising from the submarine question, and will gladly enter into conversations."

"We desire no discords in our relations with America, but continue to hold the old course of friendship with no further intention to trouble it."

CERTAIN RESISTANCE

"The limitation of activities of our submarines has not been carried through without certain resistance of our public opinion, for, as you know, the whole nation takes great interest in this arm, and is jealous of anything affecting its success. But the present policy, based as it is upon approval of His Majesty, will have the support of all."

"Should the present instructions governing the submarine campaign be extended in any respect, the imperial government, as the Chancellor assured you recently, would not hesitate to give such complete satisfaction to the United States as would conform to the friendly relations between the two governments."

REPUBLICANS NAME GREEN

MCCARTHY IS FINED AND PUT UNDER BOND

appeared as attorney for Lewis. The lawyer requested that the rock McCarthy had hurled at the reporter be produced, but waived the point when Police Officer Gentry, who arrested McCarthy, informed the court that he had been unable to find the missile—a sample of paving block.

LEWIS TELLS OF ATTACK MADE BY MCCARTHY

Lewis was the first witness. He informed the court that he had entered the Administrative Board rooms to see Chairman Hirschberg on business. McCarthy was sitting at his desk and Hirschberg was conversing with George M. Cense at the time. "Here, here, didn't I tell you not to come in here when I was here?" McCarthy thundered at the reporter as soon as he saw him. Lewis replied that he was there to see Hirschberg, and not to talk with McCarthy. With that the city administrator rose and attempted to strike Lewis with a newspaper. Failing, he stepped back and inquired, "Where is my rock?" He was referring to the paper which usually found on his desk. McCarthy found the stone in a second and threw it at Lewis. Both the reporter and Cense ducked their heads, and the stone struck the opposite wall.

Lewis grasped McCarthy's wrists and held him until clerks came in and led McCarthy away. At the advice of clerks and to avoid further trouble, Lewis left, he left the building shortly afterward.

PREVIOUS ASSAULT ON LEWIS IS NOT ADMITTED BY COURT

Justice Crutcher held that the previous assault made on Lewis by McCarthy had nothing to do with the assault of Friday, and ruled out Attorney Leake's questions concerning it. To save him embarrassment, it was agreed by those interested in the case that Administrator Hirschberg be excused from testifying.

Mr. Cense was then called to the stand, and corroborated the evidence given by Lewis. He stated that the reporter made no attempt to touch him physically, the assault made on him by McCarthy. McCarthy had no questions to ask either of the witnesses, and he then took the stand in his own defense.

McCarthy offered to file as evidence a theatrical publication in which Lewis had written insulting and incendiary articles concerning him, according to McCarthy's statement. McCarthy held that the article tended to a breach of the peace, that the attacks had resulted from his publication, and that the reporter had no right in the office of the board.

HAD RIGHT TO EXCLUDE ANY ONE, CLAIMS MCCARTHY

"When I was Mayor of this city I had an opinion from the City Attorney that I had the right to exclude any one from my office I wanted to," asserted McCarthy.

The former Mayor then referred to "alien" newspaper men, and said that Lewis was from another section of the country. He reiterated his statement that Lewis had continually forced himself into his presence, but admitted that the evidence furnished by the prosecution was correct.

Justice Crutcher rendered his decision without comment, and only smiled when McCarthy asked him if it was possible to bind over a newspaper to keep the peace. Just as he left the courtroom McCarthy observed, "I think the greatest mistake was the loss of that rock."

TELLS HER PARTY GUESTS TO WEAR BATHING SUITS

BOSTON, MASS., September 18.—The unprecedented heat wave which continued yesterday, and for the fourth day the temperature was well up in the nineties. Several deaths and many prostrations were caused by the heat. The heat was tried out all over eastern Massachusetts, and one of the most novel was a "keep-cool lawn party" given by a social leader at her Salem estate last evening.

The guests came, fifty in number, all attired in bathing suits. The lawn was decorated with Japanese lanterns, and chairs and hammocks were plentiful. Long lines of hose had been stretched to the lawn and pretty young misses managed the nozzles. Whenever a guest began to perspire from exertion he had but to step in front of the hose and say, "sprinkle me." He was sprinkled, and then feeling fit he was ready to plunge again into the splashing fun which the hostess kept going.

Pretty girls in bathing suits served refreshments to the guests, who were all attired in similar fashion. In making the trip to and from their homes the guests wore bathrobes.

AUTOMOBILE KNOCKS STREET CAR FROM TRACK

Mrs. T. B. Johnson, of Monument
Avenue, Is Rushed to St.
Luke's Hospital.

SLIPPERY CHILD IS THROWN OUT

Slippery Condition of Paving Just
Before Storm Is Given as Probable
Cause of Skidding of Motor Car,
Motorman Injured.

Mrs. T. B. Johnson, 2700 Monument Avenue, was painfully injured late yesterday afternoon when her husband's automobile, driven by him, ran into a Broad and Twenty-fifth Street car at Monument Avenue and Robinson Street and knocked the electric car off the tracks. Mrs. Johnson and her small child were thrown from the automobile.

The injured woman and her child were taken into a passing automobile and hurried to St. Luke's Hospital before Ambulance Surgeon Doggett could reach the scene. Johnson was not injured, but her child was thrown out of the car and lay on the ground for some time before it could be picked up.

Johnson is said to have stated that he was hurrying home in advance of the expected shower about 6:30 o'clock. He was running at a rapid rate when he approached the Robinson Street crossing. He saw the car as it started across the street, and applied the brakes.

SLIPPERY ASPHALT CAUSES CAR TO SKID

However, the slippery condition of the asphalt caused his car to skid a considerable distance before it could be stopped. While it was skidding it ran into the street car, striking it near the front platform. The electric car was bounced off the tracks and along the side of the street. The motor car was damaged slightly. The automobile is said to have been badly wrecked. It is a large and heavy machine and struck the street car with considerable force. None of the passengers of the latter vehicle was injured.

It was stated at St. Luke's Hospital last night that Mrs. Johnson had suffered a cut over the eye and a great shock, but that she would probably be able to leave the hospital this morning. Although the accident occurred late in the afternoon, no report of Mrs. Johnson's presence in the hospital had been made to the police at midnight.

CALOMEL SICKENS! IT'S MERCURY! DANGER

"Dodson's Liver Tone" Straightens You Up Better Than Salivating,
Dangerous Calomel and Doesn't Make You Sick—
Don't Lose a Day's Work—Wonderful Discovery
Destroying Sale of Calomel Here.

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated, breath bad, stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick; you may lose a day's work. Calomel is mercury or quicksilver, which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping. If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone tonight. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your sluggish liver better than a dose of nasty calomel and that it won't make you sick. Dodson's Liver Tone is real liver medicine. You'll know it next morning, because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working, you'll be cheerful, full of vigor and ambition. Dodson's Liver Tone is entirely vegetable, therefore harmless, and cannot salivate. Give it to your children. Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stopped entirely here.
